Keynote Address:

Opportunities and Challenges for the Panels Industry in Finland <i>Antro Säilä</i>	1
---	---

Session 1: Setting The Scene - Our Industry

Future of Boreal Coniferous Fibre – Need vs. Availability <i>Miia Tähtinen</i>	7
Life Cycle Impact Assessment of Wood Based-Panels: Particleboard, Medium Density Fibreboard (MDF) and High Density Fibreboard (HDF) <i>S. González-García, G. Feijoo, P Widsten, A. Kandelbauer, E. Zikulnig-Rusch and M.T. Moreira</i>	19
Protecting Cargo Container Flooring Against Attack by Wood Destroying Insects <i>James Creffield, Jamie Hague and Damian Scown</i>	27

Session 2: Formaldehyde

Free Formaldehyde – Where Can I Find It? <i>Mark Irle, Christophe Belloncle and Baha Guezguez</i>	31
Real Time Determination of Formaldehyde Emission from Particleboards Using NIR-Spectroscopy <i>Björn Engström</i>	39
Study on the Formaldehyde Emission Stable State for Particleboards by the Flask Method <i>K. I. David, O. Zelenuic, V. Petrovici and L. Sangeorzan</i>	41

Session 3: Plywood

New Approaches to Different Plywood Gluing Methods <i>Jouni Rainio</i>	53
Factors Influencing the Properties of Veneer-Based Products <i>Anti Rohumaa, Mark Hughes and Martin Ohlmeyer</i>	57
Log and Veneer Quality of Finnish and Russian Birch in Plywood Production <i>Henrik Heräjärvi and Juha Arponen</i>	67

Session 4: Resin Strength and Quality Control

Quality Control Based on Internal Bond – Designing the “Bond-o-Matic” <i>Stephen Young</i>	79
---	----

Monitoring Bond Strength Development During the Phenol-Formaldehyde Adhesive Cure <i>Milan Sernek and Matej Jost</i>	87
Optimization of the Synthesis of Urea-Formaldehyde Resins by Response Surface Methodology <i>J. Ferra, J. Pereira, B. Pinto, F. Silva, J Martins, A Mendes, M.R. Costa, L. Carvalho and F.D. Magalhães</i>	97

Session 5: Resin Technology

Advances in Ultra-Low Emitting UF Resin Solutions for Particleboard, MDF and Hardwood Plywood <i>David M. Harmon</i>	111
Formaldehyde-Free Adhesive System Provides a Cost-Competitive, Environmentally-Friendly Alternative for Interior Wood Products Market <i>J. David Mullen</i>	117
Chemical Changes in Wood Induced by Thermo-Mechanical (TMP) and Chemo-Thermo-Mechanical (CTMP) pulping and their Impact on Board Properties <i>E. Roffael, U. Hennecke, T. Schneider and B. Dix</i>	121

Session 6: Monitoring and Testing

Monitoring the Quality and Match to Reference of Aesthetic Panels with a New Camera-Based True Colour Vision Technology <i>Robert Massen, Joerg Eberhardt and Stefan Asal</i>	139
Using the B-Stage Test to Guide the Production of Impregnated Low Pressure Laminate Paper <i>David Rigg and Bogdan Siwanowicz</i>	147
Online Measurement and Latest Technical Solutions for High-Volume Production of Wood Based Panels <i>Hauke Kleinschmidt</i>	157
Evaluation of Parameters Influencing the VOC Emissions from OSB <i>Martin Ohlmeyer and Mathias Makowski</i>	161
On-line, Non-contact, Dimensional Measurement of Wood Based Panels <i>Stefan Jerrelid</i>	169

Session 7: Raw Materials and New Products

Agricultural Residues with Light Parenchyma Cells and Expandable Filler Materials for the Production of Lightweight Particleboards <i>P. Meinschmidt, A. Schirp, B. Dix, V. Thole and N. Brinker</i>	179
How to Produce High Performance Straw MDF <i>Sören Halvarsson, Håkan Edlund and Magnus Norgren</i>	189

Multilateral Applications of the Knife Ring Flaker <i>Robert Loth</i>	201
Production of Dimensionally Stable and Decay Resistant Wood Composites Based on Acetylation <i>Roger M. Rowell</i>	203
Microwave Manufacturing of Solid Wood Composites from <i>Paulownia fortunei</i> and <i>Paulownia elongata</i> <i>P. Vinden, G. Torgovnikov, A. Shaginov, S. Przewloka, J. Hann,</i> <i>P. Blackwell and H Senko</i>	211
 Poster Session	
Optimization of the Physical-Mechanical Properties of Three-Layer Agricultural Particleboards Made in Perú <i>Pablo Aguilar and Lucy Yglesias</i>	223
The Influence of Moisture Capacity of Building Materials on the Indoor Air Quality - Field Measurements <i>Miimu Airaksinen</i>	231
Evaluating Customer Preferences and Customer Satisfaction Measurement in the Iranian Particleboard Market <i>Amin Arian</i>	237
Research and Development of Wood Plastic Composites from Radiata Pine and Polypropylene for Manufacture of Windows Used in Chilean Housing <i>A. Ballerini, M. Núñez, A Wechsler and X. Bustos</i>	243
Waste Thermoplastics as Binders for Green and Recycled Wood Bonding in Particleboard Manufacturing <i>P. Borysiuk, M. Mamiński, D. Nicewicz, P. Boruszewski and A. Zado</i>	249
Straw as a Raw Material for Production of Fibreboards <i>Lech Danecki, Danuta Nicewicz and Marcin Klimczewski</i>	255
Study Upon the Quality of Aminoplast Structural Adhesive Mixed with Lignin for Load Bearing Structures <i>K.I. David, V. Petrovici, O. Zelenuic and A.M Varodi</i>	261
Protection of OSB against Termites <i>S. Donath, P. Spetmann, T. Jaetsch and T. Zahlmann</i>	267
Nano Cellulose and its Applications <i>Oleg Figovsky and Michael Ioelovich</i>	273
Wettability of Chosen Alternative Lignocellulose Raw Materials for Particleboards Production <i>Gregorz Kowaluk, Jakub Sandak and Bartosz Palubicki</i>	279
Properties of Bamboo Panel Boards Treated by NaOH <i>M.N. Lugoye, J.V. Tesha, C. Nyahumwa and S. Karlsson</i>	285

Detection of Chemical Elements in Cured Urea-Melamine-Formaldehyde Resins Using Energy Dispersive X-Ray Analysis (EDXA) <i>Byung-Dae Park and Jong Young Park</i>	293
Effect of Recycled Wood on the Performance of Particleboard <i>Brigida Pinto, João Pereira, Jorge Martins and Luisa Carvalho</i>	299
The Machining Characteristics of Oil Palm Empty-Fruit Bunches (EFB) Particleboard <i>J. Ratnasingham and M. Murugan</i>	309
Oil Palm Biomass: A Potential Fibre Resource for the Composite Industry <i>J. Ratnasingham, S.R Farrokhpayam and M. Murugan</i>	315
Study of Curing Kinetics of Phenolic and Lignin-Phenolic Novolac Resins Using DSC Data for Ozawa and Ozawa-Flynn-Wall Methods <i>E. Rojo, M.V. Alonso, J.C. Dominguez, M. Oliet and F. Rodriguez</i>	321
Reduction of Water Absorption and Swelling of Fibreboard <i>Javad Torkaman</i>	329
Effect of Coatings on the Performance and Durability of Birch Plywood – Results after Outdoor Weathering and Accelerated Decay Resistance Assessments <i>H. Viitanen, A. Nurmi, S. Metsä-Kortaleinen, S. Jämsä and L. Paajanen</i>	335
Influence of Technical Lignin on the Quality of the Adhesives based on Aminoplastic and Furan Resin for Load Bearing Timber Structures <i>O. Zelenuic, V. Petrovici, A.M. Varodi and S.N. Urdea</i>	341
