

INNOVATION STAGE

BC SERVICES

Problem Identification

Scoping research
Problem definition study
Product/compound analysis
On-site sampling
Feasibility study

Ideas generation

Patent search
Benchmarking study
Technical literature search
Brainstorming activity
Collaboration study
Funding research

Idea screening / evaluation

Market study
Technology study

Solution definition

Product development

Research / development

Compound formulation
Chemical synthesis

Prototyping

Custom synthesis
Scale up of manufacture

Testing / Evaluating

Trials
Chemical analysis
Destructive / non-destructive testing
Product Evaluation

Into Manufacture

In-plant trials
Process layout / design
Process engineering
On-site sampling
